

Tools Vocabulary

Handsaw	Sierra de Mano (Serrucho)
Tenon saw	Sierra de costilla
Board saw	Sierra para cartón
Coping saw, Fret saw	Segueta
Hacksaw	Sierra para metales
Bench saw	Enorme Sierra fija de disco
Jigsaw	Sierra de calar
Circular saw	Sierra circular
Scissors	Tijeras
Coping Saw	Segueta pequeña de arco
Allen Key	Lave allen
Lathe	Torno
Fluorescent tube	Luz fluorescente
Brushes	Pinceles
Rollers	Rodillos

Tools to measure Mark and Secure

Awl or punch	punzón
Compass with steel points	Compas de puntas de metal
Measuring tape	Cinta métrica
Carpenter ruler	Metro de carpintero
Carpenter Square	Escuadras para madera
Ruler	Regla
Vice bench	Tornillo de Banco
Ring Clamp	Abrazadera
C-Clamp	Gato
Bar Clamp	Gato

Drilling and Carving or levelling Tools

Chisel Tool for carving out wood	(for stone) cincel m;
Gimlet	Barrena
Hand drill	Berbiquí
Drill and drills bits	Taladro y Broca
Pillar Drill	Taladro de columna
Carpenter's Mallet	Mazo de Carpintero

Straight chisel	Escoplo
Paring chisel	
Carpenter's mallet	Mazo de Carpintero

Tools for Planning and Sanding

Rasp rasp 1 /ræsp /	escofina
Abrasive wheel/sanding disc	
Sand Paper	Papel de lija
Files	Limas
Teasel: metal wire brush used to clean rasps and files	Carda o cardón
Plane used to level wood surfaces by removing very thin strips	Cepillo de carpintero
Sander	Lijadora
Splinter / 'splɪntər/ sustantivo (of wood)	Astilla f; (of glass, bone, metal) esquirla f; (before n) ~ group grupo m escindido

Tools for Joining Pieces

Claw Hammer	Martillo sacaclavos
Nails	Clavos
Pincers	pincers pl (tool) tenazas fpl, tenaza f; a pair of ~s unas tenazas, una tenaza
Pliers	Alicates
Combination Pliers	Alicates de uso general
Wire cutters	Alicate de corte
needle-nose Pliers	Alicate de punta fina
Screwdriver	Destornillador
Screw	Tornillo
Spanner	Llave fija
Adjustable Wrench / spanner	Llave Inglesa
Tape	Cinta adhesiva
Electric screwdrivers	Destornillador eléctrico
Hinges	Bisagra
Contact Adhesive	Pegamento de contacto
Wood Glue	Cola para Madera
Glue gun	Pistola termofusible

Unit Vocabulary

Abrasive: something that is rough or wears down	
--	--

a surface	
Blade: the part of the saw that is metal and has teeth that cut through wood	
Bolt	
Bolt: a heavy type of screw usually with a hexagonal head on it	Perno
Chisel off: remove by cutting with a shaped metal hand tool	
Clamp down: secure something solidly against a stable surface with a clamp or vice	
Clamp: tool that adjust to hold something in place	
Coarsed: rough	coarse /kɔ:rs / /kɔ:s/ adjetivo coarser, coarsest a. <sand/filter> grueso; <cloth> basto, ordinario, burdo; <bread> basto; <features> tosco b. <person> basto, ordinario, burdo; <manners> ordinario, basto, tosco; <language/joke> ordinario, basto, grosero
Drill: using a tool to make a hole in something	
Grooved: with recessed spaces cut into the surface	
Grooved: with recessed spaces cut into the surface	groove /gru:v/ sustantivo (in screw) ranura f, muesca f; (for sliding door) guía f; (for pulley) garganta f, hendidura f (Audio) surco m
Hardness: the degree that something is hard	
Joint: The place where two pieces of material are fixed together	
Joint: the place where two pieces of materials are fixed together	Union
Layer: a thin covering	Capa
Lead: Part of pencil that makes a mark	
Lead: part of the pencil that makes a mark	
Measure	
Measure: To find the size of something	
Nail: a thing straight piece of metal, usually with a head on it, used to join pieces together	Clavo
Nail: a thins straight piece of metal usually with a head on it, used to join pieces of wood	
Oscillating: moving quickly from side to side,	

back and forth or in a circular motion	
Plate: a flat piece of metal	
Pore: a tiny hole in a material	
Pore: a tiny hole in a material	Poros
Primer: substance used to prepare wood for painting by filling in the pores	Tapaporos
Roller: Brush in the shape of a cylinder	Rollo de pintura
Sand: make a surface	
Screw: a round metal connector with grooves and a head, used to join pieces of wood, metal or plastic.	
Secure: Fix in place	
Secure: fix in place	
Stain: liquid used to change or enhance the colour of wood	Tinte
Steel: Hard metal, iron and carbon alloy	
Strip: a long piece of material	Tira, listón
Strip: a thing long piece of a material	
Thickness: the measurement across an object, how thick it is	
Tighten: make tighter or fit closer together	Apretar
Tighten: make tighter or fit closer together	
Tiny: very small	
To sand	Lijar
Toothed: with tooth-like projections
